

USEFUL INFORMATION

about the vaccination against COVID-19

For children, adolescents and parents

1. When you get vaccinated, your body builds up protection against COVID-19.

5. All vaccines against COVID-19 are tested very thoroughly. They are safe to use.

2. If you are vaccinated, the risk of getting COVID-19 is small.

6. Vaccination is voluntary and free of charge.

3. When many are vaccinated, we can live more as we did before the pandemic.

7. Talk about vaccination at home.

4. Worldwide, more than 20 million children over the age of 12 have received two doses of COVID-19 vaccine.

8. More information about the vaccination is available at www.1177.se. There you can also read about when you can get vaccinated.
